Professional Summary

Results-driven Computer Engineer Graduate (Pass-Out in May 2026) with hands-on internship experience in **backend development** using Node.js, Express.js, and MySQL. Proficient in **REST API design**, relational database management, and server-side logic. Strong foundation in **Data Structures and Algorithms** with consistent competitive programming practice. Seeking a software engineering role to deliver scalable, production-ready solutions.

Education

Vishwakarma Government Engineering College (VGEC) — Ahmedabad, India
B.E. Computer Engineering | CGPA: 8.30 / 10 — *2022 – 2026*

Parth School of Science and Competition — Vadodara, India
HSC (GSHSEB) | Percentage: 80% — *2020 – 2022*

Technical Skills

Languages: Java, JavaScript, TypeScript
Frontend: HTML5, CSS3, React.js, Tailwind CSS, Next.js
Backend: Node.js, Express.js
Databases: MySQL, MongoDB
Tools: Git, GitHub, REST APIs, Redux Toolkit, JWT Authentication

Experience

JSP Infotech — Surat, India
MERN Stack Developer Intern — *Present*

- Assisted in developing full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Implemented basic authentication flows including login and registration using JWT concepts.
- Worked with Git for version control including commits and branch-based workflow.
- Supported development of REST APIs and frontend integration under mentorship.

eSparkBiz — Ahmedabad, India
Software Development Intern — *Jan 2026 – Apr 2026*

- Developed RESTful APIs using Node.js and Express.js for backend modules.
- Designed MySQL database schemas for application features and data modeling.
- Implemented validation logic and tested APIs to ensure reliable data handling.

Projects

Institute Timetable Generator — Live | Code
Personal Project | React, TypeScript, Tailwind CSS, MongoDB — *May 2026 – June 2026*

- Built a full-stack timetable generation system supporting 90+ faculty members across multiple departments.
- Designed a conflict-free scheduling algorithm handling 500+ lecture allocations with automatic room assignment.
- Developed and deployed the application using React, Node.js, Express.js, MongoDB Atlas, and REST APIs.
- Implemented dynamic data modeling to support configurable institute-specific scheduling rules and constraints.
- Optimized scheduling logic to handle multiple divisions and resource constraints without timetable conflicts.

O2 Positive – Gamified Social Media Platform
Internship Project | HTML, CSS, Node.js, MySQL — *Jan 2026 - Apr 2026*

- Assisted in developing a gamified social media platform where users earn points and boost post visibility.
- Contributed to frontend development for login, registration, and core UI components using React.js.
- Supported backend CRUD operations and assisted in MySQL database schema design for core modules.
- Helped in integrating REST APIs between frontend and backend for smooth data flow and functionality.
- Participated in debugging and testing features to ensure stable application behavior across modules.

Achievements

Top 7% in JEE Mains 2022 among 9,05,000+ candidates.

Top 4% in GUJCET 2022.

Qualified VITEEE 2022.
